ERASMUS MUNDUS JOINT MASTER • 2027–2029 INTAKE

resco

Erasmus Mundus Master
in Renewable Energy and
Sustainable Construction

Building a sustainable future together

A two-year, fully English-taught Erasmus Mundus Joint Master

Explore the connection between civil engineering, sustainable construction and renewable energy systems through an international, multidisciplinary learning journey.

2 YEARS	120 ECTS	4 COUNTRIES	FULLY IN ENGLISH

ERASMUS MUNDUS SCHOLARSHIPS

€1,400 / month

for 24 months

- Full tuition fee waiver
- Around 17 scholarships expected for each cohort

Scholarship numbers may vary by intake.

WHO CAN APPLY?

A Bachelor's degree or equivalent in:

- Civil or structural engineering
- Mechanical or energy engineering
- Architecture / architectural engineering
- A related Architecture, Engineering and Construction (AEC) field

ENGLISH PROFICIENCY: B2 MINIMUM

Erasmus Mundus Master in Renewable Energy and Sustainable Construction

FOUR SEMESTERS. A EUROPEAN JOURNEY.

Study across four European countries with five partner institutions.

SEMESTER 1

Budapest, Hungary

Budapest University of Technology and Economics (BME)

Foundations in civil and structural engineering, modelling and building physics.

SEMESTER 2

Spain & Portugal

University of A Coruña (UDC) and University of Minho (UMinho)

Sustainable construction, energy efficiency and resource-conscious building design.

SEMESTER 3

Le Havre, France

Université Le Havre Normandie, co-accredited with INSA Rouen Normandie

Specialisation in renewable energy systems and civil engineering.

SEMESTER 4

Worldwide internship

Company, research laboratory or NGO

A 4–6 month internship, followed by the preparation of a Master's dissertation.

WHAT YOU WILL LEARN

- Civil and structural engineering
- Sustainable construction and energy performance
- Solar, wind and marine energy systems

CAREER PATHS

- Renewable energy and construction industries
- Engineering, public-sector and R&D roles
- Research and PhD opportunities

INSA INSTITUT NATIONAL DES SCIENCES APPLIQUÉES ROUEN NORMANDIE

UNIVERSITÉ LE HAVRE NORMANDIE

UNIVERSIDADE DA CORUÑA

MŰEGYETEM 1782 BME BUDAPEST UNIVERSITY OF TECHNOLOGY AND ECONOMICS

Universidade do Minho

Co-funded by the European Union

FOUR MASTER'S DEGREES. FOUR EUROPEAN COUNTRIES.
